

# Subject Index to Volume 38

## A

**Acadesine** and reperfusion injury, of small intestine, H1752

**Acetylcholine** effects on outer medullary descending vasa recta, H710 in subarachnoid hemorrhage-induced vasospasm, H1009 nitric oxide release induced by, in pregnancy, H1899

**Acidosis** *see also pH* and hydrogen peroxide injury to isolated heart, H308

**Actin** cytoskeleton, and histamine treatment, H1528

**Adenosine** activation of ischemically sensitive cardiac sympathetic afferents and, H106 cytosolic, in demand ischemia vs. coronary occlusion, H819 and flow-induced dilation of coronary arterioles, H541 and hypoxia-induced atrial natriuretic peptide release in fetal sheep, H282 in ischemia and reperfusion of ventricular myocytes, H121 leukocyte adhesion and, in postischemic skeletal muscle, H1743 preconditioning, ischemic preconditioning and, cardioprotective effect, H1460 receptors  $A_1$ , upregulation of protein kinase C through, H1619 vascular, and nitric oxide, H1672

**Adenosine 3',5'-cyclic monophosphate** and cardiomyocyte contractility, H1905 endothelial, and caffeine-induced vasodilation, H1679 metabolism, in cardiomyocytes, H798 stabilization of nitric oxide synthase mRNA, H2044

**Adenosine triphosphate** depletion, in perfused rat hearts, cardioplegia and, H1415 extracellular, effects on cardiac cells, H1349 intracellular calcium elevation in cerebral smooth muscle and, H1874 levels, and ATP-sensitive potassium channels, in guinea pig ventricular cells, H1625 myocardial, in demand ischemia vs. coronary occlusion, H819 production by erythrocytes, and vascular tone, H2155 in hypokalemia, studies in isolated rat hearts, H1981

**Adenyl cyclase** as indicator of G protein functional activity, H1073

**$\alpha_1$ -Adrenergic agonists** inotropic effects in postinfarction heart failure, H1553

**$\alpha$ -Adrenergic receptors** responsiveness in aging monkeys, H1664

**$\beta$ -Adrenergic receptors** responsiveness in aging monkeys, H1664

**Adult respiratory distress syndrome** porcine model of, modulation by dietary fatty acids, H2090

**Aging** cardiovascular adrenergic responses in, H1664 effects on contractility of resistance arteries, H837 occult cardiac calcium intolerance in, H1607 perivascular protein distribution in, H1213

**Albumin** effects on basement membrane hydraulic conductance, H1514 flux into lung interstitium during increased microvascular pressure, measurement, H288

**American Physiological Society** publications policy (Editorial), H1175

**4-Aminopyridine** blocking of Kv1.5 potassium channel in *Xenopus* oocytes, H556

**Anandamide** modulation of cerebral arterioles, H1859

**Angiogenesis** role of platelet factor 4 in, H829 role of vascular endothelial growth factor in, H1827

**Angioplasty** growth factors released in, H1641

**Angiotensin** angiotensin II central, AT<sub>1</sub>-receptor antagonism in heart failure, H425 contractile response to, in balloon-injured rat carotid artery, H988 hemodynamic actions, modulation of, H313 role in development of hypoxic pulmonary hypertension, H1186 and sustained calcium rise in vascular cells, H565 vascular growth induced by, mechanism for, H356 peptides, antihypertensive actions in spontaneously hypertensive rats, H313 receptor subtypes, in vascular smooth muscle cells, H565

**Angiotensin-converting enzyme** in canine cardiac tissue, H2065 coronary effects of, H1016 inhibition, beneficial effects in chronic heart failure, H1507 localized activation, in myocardial infarct zone, H1268 role in development of hypoxic pulmonary hypertension, H1186

**Angiotensin-converting enzyme inhibitors** beneficial effects in chronic heart failure, H1507 hypotensive effect in sodium-depleted marmosets, H1221

**Angiotensin II receptors** AT<sub>1</sub> (type I) and angiotensin II-induced catecholamine release, H1564 baroreflex control in hypertension and, H812

**Anisotropy** of mechanical behavior of mitral valve leaflets, H1319

**Antibody, *see* Monoclonal antibody**

**Antipyrine** pulmonary vascular extraction and distribution of, with alveolar flooding, H1811

**Aorta** caffeine-induced dilation of, H1679 contraction, protein kinase C and, H590 pressure-diameter relationship, long-term chemical sympathectomy and, H407

**Aortic input impedance** effect of elastic nonlinearities on, H1490

**Aortopulmonary septal defects** experimental, and vasoactive responses to endothelin-1, H1965

**Arachidonyl ethanolamide, *see* Anandamide**

**Arginine** binding, and barrier protective effect of albumin, H1514 effects on bradykinin-induced plasma exudation, H1648 metabolism, in endothelial cells, H1312

**Arginine-nitric oxide pathway** in cortical spreading depression, H23

**Arrhythmias** *see also Ventricular fibrillation* ischemic preconditioning and, H72 respiratory sinus effects on fractal heart rate variability, H480 during sleep, H952 in vagotomized rabbit heart, H909 ventricular, sympathetic response to, arterial pressure and, H153

**Arterial tone** effects of microspheres on, H1037

**Arterial wall** elastic nonlinearity, effect on input impedance, H1490

**Arteries** *see also Resistance vessels* baroreceptors, input to solitary tract nucleus, H923 cerebral myogenic, voltage-dependent potassium channels in regulation of, H348 permissive role of nitric oxide in, H1711 cerebral, ATP-sensitive potassium channels in, H1634

**Arteries (continued)**

- compliance
- long-term chemical sympathectomy and, H407
- physiological relevance of T-tube model parameters and, H365
- growth, with long-term electrical stimulation of skeletal muscle, H717
- mechanical properties during septic shock, H375
- proximal vs. distal, properties of, H365
- pulmonary, *see* **Pulmonary arteries**
- volume of blood flow through, determinants of, H973

**Arterioles**

- see also* **Microvessels**
- coronary, flow-induced dilation, adenosine and, H541
- tone, role of myosin phosphorylation and intracellular calcium in, H1590

**Aystole**

- myocardial systolic flow impedance during, H1202

**Atrial cells**

- calcium transients in, during electrically evoked contractions, H1165

**Atrial natriuretic peptide (factor)**

- in fetal lambs
- hypoxia-induced release, adenosine and, H282
- regional and systemic, H669
- gene expression and cardiac hypertrophy in transgenic mice, H86
- in senescent rat heart, H1003
- receptor downregulation, in renal failure, H902

**Atrioventricular node**

- conduction time hysteresis, mechanisms of, H1258
- rate-dependent function, effects of atrial pacing site on, H934

**Auricular-ventricular transmission**

- stimulation by coronary blood flow, H1177

**Autonomic nervous system**

- response to exercise, muscle metaboreceptors and, H1428

**Autoregulation**

- coronary, H1016
- myogenic oscillatory mechanisms and, H62
- of retinal blood flow, H1065

**B****Balloon angioplasty**

- nitric oxide production and, H988

**Baroreceptors**

- arterial, input to solitary tract nucleus, H923
- denervation, complexity and chaos in blood pressure regulation after, in dogs, H1760
- platelet-induced dysfunction, H599

**Baroreflexes**

- in coarctation hypertension, losartan and, H812
- control of renal nerve activity, vasopressin in nucleus of solitary tract and, H1080
- function, nitric oxide and, H851
- in hypertension, in rabbits, H1570
- myogenic oscillatory mechanisms and, H62

**Basement membrane**

- hydraulic conductance, effects of albumin, H1514

**Benzamil**

- central infusion of, effect on Dahl S rat hypertension, H1044

**Blood-brain barrier**

- transport, in newborn pigs, ischemia-reperfusion-induced alteration of, H750

**Blood flow**

- see also* **Cerebral blood flow; Coronary blood flow**
- cutaneous, in idiopathic dilated cardiomyopathy, H1973
- heterogeneity, fractals describing flow distributions in, H7
- measurement, fluorescent microsphere sedimentation technique, H725
- muscle, laser-Doppler imaging of, H1496
- peripheral, local regulation of, H2155
- pulmonary, increased, and vasoactive responses to endothelin-1, H1965
- regional arterial, diastolic time and, H973
- retinal, autoregulation of, H1065

**Blood pressure**

- see also* **Hypertension; Hypotension**
- arterial
- oscillations, origin of, H62
- and sympathetic response to ventricular arrhythmias, H153
- endothelial cell dysfunction and, H189
- paraventricular nucleus histamine and, H80

- regulation, complexity and chaos in, H1760
- respiratory-related, during sleep, H952
- response to exercise, muscle metaboreceptors and, H1428
- response to furosemide, renal denervation and, H149
- variability, autonomic and ventilatory components of, in rats, H1729

**Blood substitutes**

- diaspirin cross-linked hemoglobin and, H1379

- oxidative stress induced by, in vascular endothelium, H648

**Blood volume**

- fetal, restoration after hemorrhage, H1277

**BQ-123**

- effects in subarachnoid hemorrhage-induced vasospasm, H1009

**Brachial artery**

- vasomotion in, regulation of, H1852

**Bradykinin**

- and cardiac functional protection, H1371
- and hypotensive effect of angiotensin-converting enzyme inhibitors, in sodium-depleted marmosets, H1221
- and plasma exudation, H1648
- in pulmonary hypertension, H1186

**Brain**

- see also* **Cerebral blood flow; Hypertension, cerebral**

- corpus striatum, heatstroke-induced ischemia, attenuation by dopamine depletion, H487

- cortical spreading depression

- arginine-nitric oxide pathway in, H23

- vasodilation during, nitric oxide and prostaglandin interactions in, H176

- locus ceruleus, baroreflex suppression, paraventricular nucleus and, H46
- metabolism, effects on indomethacin on, after hypoxia, H1450

- oxygenation, cerebral cytochrome-c oxidase redox changes and, H417
- pial arterioles, acute effects of glucose on, H1297

- pial vasodilation

- hypoxia-induced, in newborn, opioids and, H997

- renin-angiotensin system, H425

- sagittal sinus prostanooids, effects on indomethacin on, after hypoxia, H1450

- solitary tract nucleus

- neurons, cardiac rhythmicity among, in rabbits, H923

- NMDA receptors in, and arterial chemoreflex, H1421

- vasopressin in, and baroreflex control of renal sympathetic nerve activity, H1080

**Brain injury**

- and opioid-induced pial artery vasodilation, H1776

**Breathing**

- effects on metabolic, hemodynamic, psychometric, and R-R interval power spectral parameters, H1437

- during sleep, and cardiovascular variables, H952

**Bronchial artery**

- resistance, effect of microspheres on, H1037

**2,3-Butanedione monoxime**

- and mitochondrial membrane potential in perfused rat hearts, H515

- papillary muscle preparation using, energetic and mechanical properties of, H1685

**C****Caffeine**

- vasodilation induced by, H1679

**Calcitonin gene-related peptide**

- effects on cerebral arteries, H1634
- receptor activation, mediation of endotoxin-induced cerebral vasodilation, H783

**Calcium channel blockers**

- central effect on hypertension in Dahl rats, H1044

- mechanism of action, in heart, H1784

**Calcium channels**

- and caffeine-induced vasodilation, H1679

- cardiac, blockade by nifedipine, H1784

- gating current, blockade by nifedipine, H1784

**L-type**

- distribution in rat pulmonary circulation, H2051

- in shark ventricular myocytes, H1695

- T-type, in shark ventricular myocytes, H1695

- in vascular myocytes, activation by isoproterenol, H195

- in ventricular myocytes, from diabetic rats, H1288

**Calcium ions**

in cardiac mitochondria, and energy production, H1981  
 extracellular  
 effects on coronary flow-dependent auricular-ventricular transmission, H1177  
 modulation of resistance artery force generation, H230  
 intracellular  
 hemolysate-induced elevation, in cerebral smooth muscle, H1874  
 $P_2$ -receptor activation-induced increase, in aortic myocytes, H30  
 role in myogenic reactivity and arterial tone, H1590  
 oscillations, and functional abnormalities in aging heart, H1607  
 in sarcoplasmic reticulum, myocardial contractility and, H965  
 source, for excitation-contraction coupling in fetal heart, H778  
 transients, in atrial and ventricular cells, H1165  
 in vascular cells, angiotensin II and, H565

**Calcium-release channel**

in rat heart  
 characterization of, H778

**cAMP, see Adenosine 3',5'-cyclic monophosphate****Capillary distensibility**

in skeletal muscle, during low perfusion pressure and reactive hyperemia, H1048

**Capillary hydraulic conductance**

effects of albumin on, H1514

**Capillary-pore-matrix model**

for ultrastructure-permeability studies, H2124

**Capillary resistance**

during low perfusion pressure and reactive hyperemia, H1048

**Capillary transit time**

myocardial, in endotoxicemic pigs, H1389

**Captopril**

baroreflex control in hypertension and, H812

hypotensive effect of, in sodium-depleted marmosets, H1221

**Cardiac hypertrophy**

$\alpha$ - and  $\beta$ -enolase expression in, H1843  
 and atrial natriuretic peptide gene expression, in senescent rat heart, H1003

exercise and coronary pressure-flow relationship in, H271

gene expression in, H638

in transgenic mice  
 atrial natriuretic peptide gene expression and, H86

molecular physiology of, H755

**Cardiac output**

measurement, continuous (24-h), advantages of, H696

**Cardiac staircase**

intracellular sodium and, H332

**Cardiac transient outward current**

4-aminopyridine-resistant, in human and rabbit atrium, H463

in myocytes from diabetic rats, H1288

**Cardiac work**

increase, decrease of mitochondrial NADH with, H856

and mitochondrial membrane potential in perfused rat hearts, H515

**Cardiomyocytes**

angiotensin II-induced necrosis, H1564  
 atrial

4-aminopyridine-resistant cardiac transient outward current in, H463  
 delayed rectifier potassium current in, H524

cell cycle regulation in, H1913

contractility, cyclic nucleotides and, H1905

embryonic stem cell-derived, DNA synthesis and multinucleation in, H1913

hypertrophied, in transgenic mice, H86

inducible nitric oxide synthase production, effects of cAMP on, H2044  
 ischemic and reperfusion, effects of adenosine in, H121

myofilament calcium response in, endothelial inhibition of, H1538

nitric oxide synthase activity and contractility in, mediation by protein kinase C, H1891

release of leukocyte-stimulating factors, H980

renin-angiotensin system in, identification and activation of, H1791

transmembrane mechanochemical coupling in, H798

ventricular  
 abnormalities of potassium and calcium currents in, in diabetic rats, H1288

arrangement, H571

ATP-activated cation channel in, H789

**Cardioplegia**

ischemic preconditioning and, H1415

**Cardioprotection**

by bradykinin, after ischemia-reperfusion, H1370

by intracoronary nitric oxide, H1113

by ischemic and adenosine preconditioning, H1460

by ischemic preconditioning and  $\alpha_1$ -adrenostimulation, H1370  
 in isolated rat heart, H1767

**Carotid artery**

balloon-injured, nitric oxide involvement in regulating vascular reactivity in, H988

chemoreflexes, NMDA receptors in solitary tract nucleus and, H1421

intimal injury, vascular preservation after, by nitric oxide donor, H1122

mitogen-activated protein kinase in, activation, H222

**Catalase**

and TNF- $\alpha$ -induced leukocyte adhesion to mesenteric venular endothelium, H1833

**Catecholamines**

*see also Norepinephrine*

angiotensin II-induced elevations in, H1564

desensitization to, in hypoxia, H1865  
 and exercise muscle blood flow, H1545

plasma, during hemorrhage, in dogs, H2082

release, in heart failure, H182

**Cation channels**  
 nonselective ATP-activated, in guinea pig ventricular myocytes, H789

**Cavernosometry**

in humans, H2109

**Cell adhesion**

in inflammatory response, H1282

**Cell cycle**

regulation in cardiomyocytes, H1913

**Cell differentiation**

in embryonic stem cell-derived cardiomyocytes, H1913

**Cell rolling**

in inflammatory response, H1282  
 and neutrophil adhesion to endothelial cells after hypoxia, H1398

**Cell swelling**

hyposmotic, activation of G<sub>i</sub> pathway in cardiomyocytes, H798

**Cell volumes**

in hypothermic myocardial ischemia, H1056

**Cerebral arteries**

ATP-sensitive potassium channels in, H1634

**Cerebral blood flow**

*see also Hyperemia, cerebral*

after brain injury, H1776

anandamide and, H1859

in cortical spreading depression

arginine-nitric oxide pathway in, H23  
 vasodilation during, nitric oxide and prostaglandin interactions in, H176

effects of indomethacin on, after hypoxia, H1450

in hypercapnia and hypoxia, H916  
 measurement, autoradiographic methods, H583

and pial vasodilation in newborn, opioids and, H997

postischemic, nitric oxide synthase inhibition and, H341

during somatosensory stimulation in rats, nitric oxide and, H1803

**Cerebral blood vessels**

response to endogenous nitric oxide synthase inhibitor, H1522

**Cerebral ischemia**

heatstroke-induced, attenuation by dopamine depletion, H487

**Cerebral vasodilatation**

endotoxin-induced, mechanisms of, H783

**Cerebral vasospasm**

intracellular calcium levels and, H1874

**Cerebrovascular response**

during somatosensory stimulation in rats, nitric oxide and, H1803

**Cerebrovascular tone**

ATP-sensitive potassium channels and, H1634

endogenous modulation of, H1522

**cGMP, see Guanosine 3',5'-cyclic monophosphate****Chaos**

vascular, regulation, H656

**Chemokines**

release from cardiomyocytes, H980

**Chemoreflex**

arterial, NMDA receptors in solitary tract nucleus and, H1421

**Cholesterol**

feeding, polymorphonuclear leukocyte-induced vasoconstriction and, H1

and nitric oxide-induced relaxation of carotid artery, mediation by potassium channels, H805

**Chronic lymphocytic leukemia** stable small molecule released by cells of, inhibition of endothelium-dependent relaxation and, H1303

**Chymase** in canine cardiac tissue, H2065

**Circadian rhythm** and apparent dimensions in heart rate dynamics, H130

**Coarctation hypertension** losartan and baroreflex control in, H812

**Collagen** cross-linking, and ventricular diastolic function, H863

**Computed tomography** myocardial microvascular function estimated with, H1820

**Computer modeling** of electrotonic inhibition of sinoatrial pacemaker activity, H1735

**Conductance catheter** right ventricular volume measurement by, H869

**Confocal microscopy** capillary, diffusion wake model for, H2124

of histamine-induced venular leaks in rat mesentery, H1528

**Congenital heart disease** heart failure with, H1473

in transgenic mice, H755

**Congestive heart failure** *see also Heart failure* pathogenesis of, in newborns, H1473, H2039

**Connective tissue** in heart, H571

**Connexins** expression in mesentery and coronary cells, H1481

**Consensus structure** in ligands for selectins, H1282

**Contractility** of cardiomyocytes, mediation by protein kinase C, H1891

**Coronary artery** adenosine receptor-mediated relaxation of, nitric oxide and, H1672

narrowing, ventricular myocyte hypertrophy in, H1791

**Coronary blood flow** autoregulation, H1016

as dromotropic stimulus, H1177

in fetal lambs at rest and during hypoxic stress, effects of nitric oxide on, H2074

impediment

ATP, blood flow, and cytosolic adenosine in, H819

and myocardial flow impediment, H1202

ischemia and, H1237

postischemic, intracoronary nitric oxide and, H1113

regulation

angiotensin-converting enzyme in, H1016

by left ventricular volume, H2010

neutral endopeptidase in, H1016

splenic effects on, and myocardial oxygen consumption, H491

as stimulus to auricular-ventricular transmission, in isolated perfused heart, H1177

**Coronary vasculature** angiotensin II-induced damage, H1564

**Corporovenous function** human, physical components of, assessment and modeling of, H2109

**Creatine kinase** inhibition, effects on contractile reserve of isolated rat hearts, H1030

**Cromakalim** effects on cerebral blood flow, in hypercapnia and hypoxia, H916

**Cutaneous blood flow** in idiopathic dilated cardiomyopathy, H1973

**Cyclic nucleotides** *see also Adenosine 3',5'-cyclic monophosphate* and cardiomyocyte contractility, H1905

effects on inducible nitric oxide synthase production in cardiomyocytes, H2044

production, after brain injury, H1776

**Cyclooxygenase** metabolites, in platelet-induced baroreceptor dysfunction, H599

**Cytochalasin D** effects on gating of cardiac voltage-dependent sodium channels, H203

**Cytochrome-c oxidase** cerebral, redox changes induced by hypoxia, H417

**Cytokines** release, from cardiomyocytes, H980

**Cytoskeleton** role in gating of cardiac voltage-dependent sodium channels, H203

**D**

**Delayed rectifier, *see Potassium channels, delayed rectifier***

**des-Arg<sup>8</sup>-bradykinin** response to, in feline hindlimb vascular bed, H2057

**des-Arg<sup>10</sup>-kallidin** response to, in feline hindlimb vascular bed, H2057

**Diabetes mellitus** arginine metabolism in endothelial cells and, H1312

effects on isometric tension in myocardium, H1656

endothelial dysfunction and, H845

insulin-dependent, impaired endothelium-dependent relaxation in, H1312

ventricular myocytes in, abnormalities of potassium and calcium currents in, H1288

**Diastole** left ventricular function in, in newborn lambs, H2039

ventricular function in, collagen cross-linking and, H863

ventricular mechanics in, H2010

**Diastolic time** regional arterial blood flow and, H973

**Diet** modulation of acute lung injury, H2090

**Diffusion theory of aging, H1213**

**Digital artery** vasomotion in, regulation of, H1852

**Dihydropyridines** block of cardiac calcium channels, H1784

**N<sup>G,N<sup>G</sup></sup>**-Dimethyl-L-arginine cerebral vascular response to, H1522

**Dimethylthiourea** effects on endotoxin-induced left ventricular depression, H1098

**Dipyridamole** fetal pulmonary vasodilation with, H473

**DNA** synthesis, in embryonic stem cell-derived cardiomyocytes, H1913

**Dobutamine** effects on mechanical alternans in ischemia/reperfusion, H169

**Dogfish** ventricular myocytes, calcium channels in, H1695

**Dopamine** depletion, protective effect against heat-stroke-induced neuronal ischemia and death, H487

**E**

**Eicosapentaenoic acid** dietary, modulation of acute lung injury by, H2090

**Electromechanical coupling** and conducted vasomotor responses, H2022

**Electrophysiology** of baroreceptor input to solitary tract nucleus, H923

of conducted vasomotor response, H2022

during ventricular fibrillation, H1998

**Endocardium** role in ventricular fibrillation, H1998

**Endothelial cells** arginine metabolism in and nitric oxide synthesis, in diabetic rat, H1312

cardioactive factor released by, H1538

dysfunction, in hypertension, H189

inhibition of myofilament calcium response in cardiomyocytes, H1538

neutrophil adhesion to, after hypoxia, H1398

nitric oxide synthase production

effects of basic fibroblast growth factor on, H1583

and preeclampsia, H1106

proliferation

and activation, endothelins in, H686

stimulation by nitric oxide donor, H1122

vascular, cell-free hemoglobin exposure, oxidative stress induced by, H648

**Endothelins** *see also Endothelium-derived contracting factor*

chronic receptor blockade, in hyperinsulinemic hypertensive rats, H2017

endothelial cell growth and migration and, H686

endothelin-1

contractile response to, in balloon-injured rat carotid artery, H988

and endothelial constitutive nitric oxide synthase, reciprocal regulation, H1988

in pulmonary hypertension, H1965

and relaxation in subarachnoid hemorrhage-induced vasospasm, H1009

**ET<sub>A</sub>-receptor blockade, and response to L-NAME, in rat, H743**

**ET<sub>B</sub>-receptor activation, in endothelial cell growth and migration, H686**

**Endothelium**  
actin cytoskeleton, and histamine treatment, H1528  
and caffeine-induced vasodilation, H1679  
conducted vasomotor responses, cellular pathways of, in hamster cheek pouch arterioles, H2031  
constitutive and induced ICAM-1 expression in, in rat, H1955  
dysfunction  
cell-derived factor and, H1303  
in model of hyperglycemia and hyperinsulinemia, H845  
mesenteric venular, TNF- $\alpha$ -induced leukocyte adhesion to, reactive oxygen in, H1833  
proliferating, reciprocal regulation of endothelial constitutive nitric oxide synthase and endothelin-1 in, H1988  
role in  $\alpha_2$ -adrenoceptor-mediated vasodilation, in rat cerebral arteries, H1171  
role in skeletal muscle perfusion in heart failure, H1507  
tracer ultrastructure-permeability studies of, in microvessels, H2124  
vascular  
constriction, cholesterol feeding and, H1  
nitric oxide synthase gene induction by shear stress, H550  
protection by *N,N,N*-trimethylsphingosine, in ischemia/reperfusion, H504

**Endothelium-derived contracting factor**  
*see also* **Endothelins**  
production, effects of aging and hypertension on, H837

**Endothelium-derived relaxing factor**  
*see also* **Nitric oxide**  
activity, dietary salt and, H1407  
in pregnancy, H1899  
in rat cerebral arteries, H1171  
in reactive hyperemia in cat hindquarters vascular bed, H1704  
subarachnoid hemorrhage-induced vasospasm and, H1009

**Endotoxemia**  
myocardial capillary transit time in, in pigs, H1389

**Endotoxin**  
acute lung injury induced by, modulation by dietary fatty acids, H2090  
cerebral vasodilatation caused by, mechanisms of, H783  
effects  
on cardiac cell nitric oxide synthase activity and contractility, mediation by protein kinase C, H1891  
on systemic arterial mechanics, H375  
ICAM-1 expression induced by, in rat, H1955

**Enkephalins**  
in hypoxia-induced pial artery dilation, H997

plasma and cardiac, effects of hemorrhage on, in dogs, H2082

**Enolase**  
isoforms, differential expression in cardiac development and hypertrophy, H1843

**Epicardium**  
role in ventricular fibrillation, H1998

**Epidermal growth factor**  
release from mechanically injured smooth muscle, H1641

**Epinephrine**  
plasma, during hemorrhage, in dogs, H2082  
regional kinetics in heart failure, H182

**Erectile dysfunction**  
corporovenous function and, H2109

**Erythrocytes**  
and nitric oxide synthesis in rabbit lung, H1941  
and vascular tone, H2155

**Excitation-contraction coupling**  
in atrial and ventricular cells, H1165  
in fetal heart, calcium source for, H778

**Exercise**  
and coronary pressure-flow relationship in cardiac hypertrophy, H271  
induction of heat shock protein 72, myocardial postischemic recovery and, H320  
muscle blood flow during  
muscle mass-specific, H1545  
in sedentary vs. trained hypothyroid rats, H1949  
regional vascular reserve in canine atria and ventricles during, H1578  
responses to, muscle metaboreceptors and, H1428

**Eye**  
retina, blood flow autoregulation, H1065

**F**

**Fatty acids**  
dietary, modulation of acute lung injury by, H2090

**Fetus**  
atrial natriuretic peptide in hypoxia-induced release, adenosine and, H282  
regional and systemic differences in, H669  
myocardial blood flow in, effects of nitric oxide on, at rest and during hypoxic stress, H2074  
pulmonary vasodilation with dipyridamole, H473  
thoracic duct lymph flow responses to hemorrhage, H1277

**Fibrillation, *see* **Ventricular fibrillation****

**Fibroblast growth factor**  
basic  
effects on nitric oxide synthase production in endothelial cells, H1583  
release from mechanically injured smooth muscle, H1641

- in  $\alpha_2$ -adrenoceptor-mediated vasodilation, in rat cerebral arteries, H1171
- in baroreceptor-cardiac reflex, in rats, H851

**Nitric oxide (continued)**  
 and caffeine-induced vasodilation, H1679  
 carotid artery relaxation induced by, mediation by potassium channels, in hypercholesterolemia, H805  
 cerebrocortical flow oscillations and, H114  
 in cortical spreading depression, H23, H176  
 donor, in arterial injury, H1122  
 effects  
   on bradykinin-induced plasma exudation, H1648  
   on cerebral blood flow, in hypercapnia and hypoxia, H916  
   on coronary blood flow, in fetal lambs at rest and during hypoxic stress, H2074  
   on endothelial cell proliferation, H1122  
 as endothelium-derived relaxing factor, H1522  
 and endotoxin-induced cerebral vasodilation, H783  
 inhibition  
   effects on postischemic cerebral hyperemia, H341  
   hemodynamic response to, and endothelin receptor A blockade, H743  
 intracoronary, effects on ischemia/reperfusion injury, in dogs, H1113  
 and kinin B<sub>1</sub> and B<sub>2</sub> receptor-mediated vasodilator responses, H2057  
 measured *in vivo*, during cerebral hyperemia, H215  
 mechanisms in cardiovascular effects of di aspirin cross-linked hemoglobin, H1379  
 mediation of flow-dependent arteriolar dilation, dietary salt and, H1407  
 mesenteric vasodilation mediated by, in pregnancy, H1899  
 production  
   in endothelial cells of diabetic rat, H1312  
   in lungs, determinants of, H1941  
   measurement *in vivo*, H215  
 in reactive hyperemia in cat hindquarters vascular bed, H1704  
 in regulation of vascular reactivity, in balloon-injured rat carotid artery, H988  
 and retinal blood flow regulation, H1065  
 and somatosensory stimulation, in rats, H1803  
**Nitric oxide-cGMP pathway**  
 vascular, inhibition by plasma from ischemic hindlimb, H254  
**Nitric oxide synthase**  
 activity in cardiomyocytes, mediation by protein kinase C, H1891  
 endogenous inhibitor of, cerebral vascular response to, H1522  
 endothelial  
   constitutive, and endothelin-1, reciprocal regulation, H1988  
   and preeclampsia, H1106  
 gene, endothelial, induction by shear stress, H550  
 inducible  
   and endotoxin-induced cerebral vasodilatation, H783  
 mRNA stability, enhancement by cAMP, H2044

inhibition, effects on postischemic cerebral hyperemia, H341  
 outer medullary descending vasa recta vasoactivity and, H710  
 production in bovine endothelial cells, effects of basic fibroblast growth factor on, H1583  
**Nitro blue tetrazolium**  
 reactivity, correlation with distribution of neutrophils between pulmonary and systemic circulation, H1195  
**Nitrogen mustard**  
 effects on endotoxin-induced left ventricular depression, H1098  
**N<sup>G</sup>-Nitro-L-arginine**  
 effects on cerebrovascular response to somatosensory stimulation, in rats, H1803  
**N<sup>G</sup>-Nitro-L-arginine methyl ester**  
 effects  
   on bradykinin-induced plasma exudation, H1648  
   on pressure-flow relationships in isolated rabbit lungs, H1941  
**L-NNA, see N<sup>G</sup>-Nitro-L-arginine**  
**Nociceptors**  
 abdominal, response to ischemia, lipoxygenase products and, H96  
**Nonlinear dynamics**  
 and description of hemodynamic control, H1760  
**Norepinephrine**  
 angiotensin II-induced elevations in, H1564  
 contractile response to, in balloon-injured rat carotid artery, H988  
 effects on outer medullary descending vasa recta, H710  
 and exercise muscle blood flow, H1545  
 plasma, during hemorrhage, in dogs, H2082  
**Nuclear magnetic resonance spectroscopy**  
 of cardiac lactate and pyruvate metabolism, H160  
 of intracellular sodium in heart, H332

## O

**Obesity**  
 heart rate control in, H629  
**Opioids**  
*see also Enkephalins*  
 activation of ATP-sensitive potassium channels, in hypoxia-induced pial artery dilation, H997  
 cerebrovascular effects, after brain injury, H1776  
 endogenous, role in hemodynamic response to hemorrhage during hypoxia, H1597  
 pial artery vasodilation induced by, brain injury and, H1776  
**Orthostasis**  
 skin perfusion during, H53  
**Oxidant stress**  
 reperfusion-induced, cardiac sodium-potassium pump activity during, H297  
**Oxidative stress**  
 induced by cell-free hemoglobins, in vascular endothelial cells, H648  
 in myocardial postischemic reperfusion injury, 4-hydroxynonenal as indicator of, H14

**Oxygen**  
 exchange, in intestinal microcirculation, H1342  
 myoglobin saturation with, cryospectrophotometric determination of, H1328  
 singlet, detection in postischemic reperfused rat hearts, H1229

**Oxygenation**  
 cerebral, cerebral cytochrome-c oxidase redox changes and, H417  
**Oxygen consumption**  
 mitochondrial NADH/NAD<sup>+</sup> and, H856  
 myocardial  
   mechanical determinants of, H609  
   splenic effects on coronary circulation and, H491

**Oxygen sensing**  
 role of erythrocytes in, H2155

## P

**PACAP, see Pituitary adenylate cyclase-activating polypeptide**  
**Pacemaker, artificial**  
 neutrally regulated, development of, H2141  
**Pacemaker, cardiac**  
 atrial, atrioventricular nodal inputs, and function, H934  
 earliest or dominant, location of, H877  
 overdrive suppression, H1153  
**Penile erection, see Erectile dysfunction**

**Pentoxifylline**  
 inhibition of *N*-formyl-methionyl-leucyl-phenylalanine-induced macromolecular leakage, H239

**Peripheral blood flow**  
 local regulation of, H2155  
**Peripheral vascular resistance**  
 in aging monkeys, H1664  
**Permeability, microvascular**  
 aging and, H1213  
 in postischemic skeletal muscle, H1743  
 pulmonary, H1501  
**Permeability, vascular**  
 and histamine treatment, H1528  
**Peroxides, see Hydrogen peroxide**

**pH**  
*see also Acidosis*  
 and ischemia/reperfusion injury in lung, H1501

**Pharmacocavernosometry**  
 in humans, H2109

**Pial artery**  
 opioid-induced vasodilation, brain injury and, H1776

**Pinacidil**  
 effects on cerebral arteries, H1634  
**Pituitary adenylate cyclase-activating polypeptide**  
 central cardiovascular effects, H135

**Plasma**  
 from ischemic muscle, vascular nitric oxide-cGMP pathway inhibition by, H254

**Platelet-activating factor**  
 and neutrophil adhesion to endothelial cells after hypoxia, H1398  
 and pulmonary vasoactivity, H704

**Platelet-derived growth factor**  
 PDGF-A, regulation, and vascular growth, H356  
 release from mechanically injured smooth muscle, H1641

**Platelet factor 4**  
antiangiogenic effect, H829  
selective binding to regions of active angiogenesis *in vivo*, H829

**Polymerase chain reaction**  
reverse transcriptase  
analysis of localized angiotensin-converting enzyme expression, H1268  
multiplex, H1791

**Polymorphonuclear cells**  
*see also* **Neutrophils**  
vasoconstriction induced by, cholesterol feeding and, H1

**Posture**  
vascular response to, H53

**Potassium channels**  
adenosine- and ATP-activated, properties of, H1349  
ATP-dependent, activation, and cardiac energy status, H734  
ATP-sensitive  
activation by cromakalim, and cerebral blood flow, H916  
activation by opioids, in hypoxia-induced pial artery dilation, H997  
in cerebral arterial smooth muscle, H1634  
effects of thiol-modifying agents on, H1625  
endothelial, and flow-induced dilation of coronary arterioles, H541  
in reactive hyperemia in cat hindquarters vascular bed, H1704  
calcium-activated  
gene expression, in vascular smooth muscle, H767  
and modulation of resistance artery force generation, H230  
calcium-dependent, in hypertension, H1246  
delayed rectifier  
in rabbit atrial myocytes, H524  
in sinoatrial node cells, H443  
in sinoatrial node pacemaker activity, H453  
Kv1.5, block, with 4-aminopyridine, H556  
Kvβ3 subunit, modulation of Kv1.4 channel, H385  
and nitric oxide-induced relaxation of hypercholesterolemic carotid artery, H805  
in ventricular myocytes, from diabetic rats, H1288  
voltage-dependent, regulation of myogenic cerebral arterial tone, H348

**Potassium currents, see Potassium channels**

**Preeclampsia**  
endothelial nitric oxide synthase and, H1106

**Pregnancy**  
nitric oxide-mediated mesenteric vasodilation in, H1899

**Pressure wave propagation**  
in human upper limb, H1363

**Prostaglandins**  
*see also* **Thromboxane-prostaglandin endoperoxide receptors**  
in cortical spreading depression, H176

**Protein kinase C**  
activation  
and acute effects of glucose on cerebral microcirculation, H1297

in bradykinin-mediated cardiac functional protection, H1370  
and aortic contraction, H590  
downregulation, phorbol ester-induced, H590  
effects on myocyte nitric oxide synthase and contractility, H1891  
isoforms, expression during cardiac ventricular development, H1087  
modulation through G proteins, H1619

**Proton production**  
inhibition by ischemic preconditioning, in isolated rat heart, H1767

**Pulmonary arteries**  
biaxial mechanics of, H433  
relaxation, PAF-induced, H704

**Pulmonary blood flow**  
increased, and vasoactive responses to endothelin-1, H1965

**Pulmonary heart defects**  
experimental, and vasoactive responses to endothelin-1, H1965

**Pulmonary hypertension**  
hypoxic, development of, H1186  
pathogenesis, endothelin-1 in, H1965

**Pulmonary vascular resistance**  
determinants, in rabbit, H1941

**Pulmonary vasodilation**  
fetal, with dipyridamole, H473

**Pulmonary veins**  
contraction, PAF-induced, H704

**Purinoceptors**  
P<sub>2</sub> subtypes, in aortic myocytes, H30

**Purkinje fibers**  
subendocardial, role in ventricular fibrillation, H1998

**R**

**Radial artery**  
vasomotion in, regulation of, H1852

**Reactive hyperemia**  
in cat hindquarters vascular bed  
ATP-sensitive potassium channels in, H1704  
endothelium-derived relaxing factor in, H1704

**Reactive oxygen species**  
and cardiac sympathetic afferents, in ischemia/reperfusion, H888  
in endotoxin-induced left ventricular depression, H1098  
in TNF-α-induced leukocyte adhesion, H1833

**Red blood cells, see Erythrocytes**

**Renal failure**  
experimental, atrial natriuretic factor receptor downregulation in, H902

**Renal nerves**  
blood pressure response to furosemide and, H149  
outer medullary descending vasa recta vasoactivity and, H710

**Renin-angiotensin system**  
central, H425  
in chronic mitral regurgitation, canine model, H2065  
effects of aging and hypertension on, H837  
in ventricular myocytes, identification and activation of, H1791

**Reperfusion, see Ischemia/reperfusion**

**Reperfusion injury, see Ischemia/reperfusion injury**

**Resistance vessels**  
contractility, effects of aging and hypertension on, H837  
endothelium-dependent dilation of in chronic heart failure, H1507  
nitric oxide and, in pregnant rats, H1899  
flow in, and conducted vasodilation, in hamster striated muscle, H1713  
force generation, modulation by extracellular calcium, H230  
in fructose-hypertensive rats, H2017

**Respiration**  
effects on metabolic, hemodynamic, psychometric, and R-R interval power spectral parameters, H1437

**Respiratory sinus arrhythmia**  
effects on fractal heart rate variability, H480  
and respiratory fluctuations in blood flow, H973  
during sleep, H952  
in vagotomized rabbit heart, H909

**Restenosis**  
growth factor release and, H1641

**Ro 24-9981**  
potentiation of bradykinin-induced plasma exudation, H1648

**R-R interval**  
autonomic and ventilatory components of, in rats, H1729  
power spectral parameters, effects of respiration on, H1437

**S**

**Salt**  
dietary, and flow-dependent arteriolar dilation, H1407

**Sarcoplasmic reticulum**  
aftercontractions, H1607  
in cardiac muscle length-dependent activation, in rabbits, H965

**Selectins**  
ligands for  
consensus structure in, H1282  
P-selectin, and neutrophil adhesion to endothelial cells after hypoxia, H1398

**Septic shock**  
cardiac cell nitric oxide synthase activity and contractility in, mediation by protein kinase C, H1891  
systemic arterial mechanics during, H375

**Serotonin**  
and gap junction function in vascular smooth muscle, H1481  
role in hemodynamic response to hemorrhage during hypoxia, H1597

**Shear stress**  
in atrial-ventricular transmission stimulation by coronary blood flow, H1177  
nitric oxide synthase gene induction by, in vascular endothelium, H550

**Shock**  
hemorrhagic, plasma and cardiac enkephalins and, in dogs, H2082

**Sinoatrial node**  
cells  
delayed rectifier potassium channel in, H443  
electrotonic inhibition of, H1735

**Sinoatrial node (continued)**  
conduction, primary negativity and, H877  
pacemaker activity  
delayed rectifier potassium channel in, H453  
earliest or dominant, location of, H877  
electrotropic inhibition of, H1735

**Sinus node**  
pacemaker activity location and, H877

**Skin**  
blood flow, in idiopathic dilated cardiomyopathy, H1973  
vascular stiffness in, in idiopathic dilated cardiomyopathy, H1973

**Sleep**  
cardiorespiratory transfer during, H952

**slo gene**  
conservation between mouse and human genome, H767

**S49 lymphoma cells**  
hyposmotic, H798

**Sodium channels**  
cardiac, voltage-dependent, gating, H203  
slowly inactivating, in myocardial ischemia, H533

**Sodium currents, see Sodium channels**

**Sodium/hydrogen exchange**  
in ischemia/reperfusion injury in lung, H1501

**Sodium ions**  
depletion, hypotensive effect of captopril in, H1221  
excretion, in chronic renal failure, H902  
intracellular, in isolated perfused rat heart, and cardiac staircase, H332  
membrane permeability to, in hypothermic myocardial ischemia, H1056

**Sodium nitroprusside**  
effects on baroreceptor-cardiac reflex, H851

**Sodium-potassium pump**  
cardiac, modulation by protein and non-protein sulphydryl redox status, H297

**Solitary tract nucleus**  
neurons, cardiac rhythmicity among, in rabbits, H923  
NMDA receptors in, and arterial chemoreflex, H1421  
vasopressin receptors in, and baroreflex control of renal sympathetic nerve activity, H1080

**Somatosensory-evoked potentials**  
nitric oxide and, in rats, H1803

**Spectral analysis**  
during respiratory sinus arrhythmia, in vagotomized rabbit heart, H909  
of ventilatory contribution to cardiovascular variability, H1729  
of ventilatory contribution to metabolic, hemodynamic, psychometric, and R-R interval parameters, H1437

**Spectroscopy, optical**  
for cryospectrophotometric determination of myoglobin saturation, H1328

**Spleen**  
contraction-induced effects on coronary circulation, and myocardial oxygen consumption, H491

**Squalus acanthias, see Dogfish**

**Strain**  
mechanical behavior of mitral valve leaflets with, H1319

**Stress**  
mechanical behavior of mitral valve leaflets with, H1319

**Subarachnoid hemorrhage**  
vasospasm induced by, endothelin-1 and relaxation in, H1009

**Substrate utilization**  
myocardial, repetitive ischemia and, H246

**Sulphydryl groups**  
modifying agents, effects on ATP-sensitive potassium channels, H1625  
protein and nonprotein, redox status, cardiac sodium-potassium pump activity and, H297

**Superoxide dismutase**  
and TNF- $\alpha$ -induced leukocyte adhesion to mesenteric venular endothelium, H1833

**Sympathetic nerve activity**  
artificial cardiac pacemaker directly regulated by, development of, H2141  
renal, baroreflex control of, vasopressin and, H1080

**Sympathetic nervous system**  
arterial distensibility and, H407  
effects on growth of myocardium in oculo, H140  
renal nerves, blood pressure response to furosemide and, H149  
response to exercise, muscle metaboreceptors and, H1428  
to premature beats, H153

**T**

**Tachycardia**  
in coarctation hypertension, H812  
vagally induced, vasoactive intestinal polypeptide as mediator of, H1467

**Tenuissimus muscle, rabbit**  
blood flow in, laser-Doppler imaging of, H1496  
capillary distensibility in, H1048

**Testis**  
microvascular pressure alterations, during venous pressure elevation, H37

**Tetrahydrocannabinol**  
modulation of cerebral arterioles, H1859  
receptor, anandamide binding to, H1859

**Thermoregulation**  
reflex vasodilation in, permissive role for nitric oxide in, H1613

**Thiol groups**  
ATP-sensitive potassium channels and, in guinea pig ventricular cells, H1625

**Thoracic duct**  
lymph flow, responses to hemorrhage, in fetal lamb, H1277

**Thromboxane-prostaglandin endoperoxide receptors, in hypertension**, H189

**TMS, see N,N,N-Trimethylsphingosine**

**Transfer function analysis**  
in development of neurally regulated cardiac pacemaker, H2141

**Transgenic mice**  
cardiac hypertrophy in atrial natriuretic peptide gene expression and, H86  
molecular physiology of, H755  
and morphometry and muscle gene expression in, H86  
cardiac muscle diseases in, H755

**N,N,N-Trimethylsphingosine**  
protective effects in myocardial perfusion injury, H504

**Tronopin T**  
isoforms, in myocardium of diabetic rats, H1656

**Tumors**  
HPB cells, stable small molecule released by, inhibition of endothelium-dependent relaxation and, H1303

**U**

**Ulnar artery**  
vasomotion in, regulation of, H1852

**Umbilical artery**  
cyclic nucleotide-dependent vasorelaxation, impaired, H749

**Upper extremity, human**  
modeling of wave propagation in, H1363  
regulation of vasomotion in intact muscular arteries of, H1852

**V**

**Vagus nerves**  
synchronized stimulation, control of heart rate during, transfer function analysis of, H1931  
tachycardia induced by, vasoactive intestinal polypeptide as mediator of, H1467

**Varicocele**  
pathophysiology, H37

**Vascular endothelial growth factor**  
gene expression, upregulation in electrically stimulated muscles, H1827

**Vascular permeability**  
and histamine treatment, H1528

**Vascular permeability factor, see Vascular endothelial growth factor**

**Vascular resistance**  
and respiratory fluctuations in blood flow, H973

**Vascular tone**  
cerebral  
ATP-sensitive potassium channels and, H1634  
endogenous modulation of, H1522  
erythrocytes and, H2155  
regulation  
role of basic fibroblast growth factor in, H1583  
role of endothelial cells in, H1583  
role of myosin phosphorylation and intracellular calcium in, H1590

**Vasoactive intestinal (poly)peptide**  
antagonists, attenuation of vagally induced tachycardia, H1467  
central cardiovascular effects, H135  
and plasma exudation, H1648

**Vasocstriction**  
orthostatic, in human skin, H53  
PMN-induced, cholesterol feeding and, H1

**Vasodilation**

active, in rabbit ear, nitric oxide and, H1613  
 arteriolar, flow-dependent, dietary salt and, H1407  
 conducted, in hamster striated muscle, H1713  
 reflex, permissive role for nitric oxide in, H1613

**Vasomotion**

chaotic, regulation by external control, H656

in intact muscular arteries, measurements of, H1852

**Vasomotor responses**

conducted  
 cellular pathways of, in hamster cheek pouch, H2031  
 electromechanical coupling and, H2022

**Vasopressin**

reflex control of, during hemorrhage in hypertensive rabbits, H1570  
 $V_1$  receptors, in nucleus of solitary tract, and baroreflex control of renal sympathetic nerve activity, H1080

**Vasorelaxation**

umbilical artery, impaired cyclic nucleotide-dependent, H749

**Vasospasm**

subarachnoid hemorrhage-induced, endothelin-1 and relaxation in, H1009

**Veins**

growth, with long-term electrical stimulation of skeletal muscle, H717

**Ventilation**

response to exercise, muscle metaboreceptors and, H1428

**Ventricles, *see* Heart ventricles****Ventricular cells**

calcium transients in, during electrically evoked contractions, H1165

**Ventricular fibrillation**

activation rate gradient during, effects of chemical subendocardial ablation on, H1998

calcium-dependent, in aging heart, H1607

ischemic preconditioning and, H72

**Ventricular septal defect**

heart failure with, H1473

**Venules**

nonlinear pressure transmission in, in rabbit liver, H1922

**Verapamil**

and mitochondrial membrane potential in perfused rat hearts, H515

**Volume overload**

left ventricular, with ventricular septal defect, H1473

**W****Walter B. Cannon Lecture, H755****Walter B. Cannon Lectureship Award, H753****Water, tritiated**

pulmonary vascular extraction and distribution of, with alveolar flooding, H1811

**X****Xanthine oxidase**

and TNF- $\alpha$ -induced leukocyte adhesion to mesenteric venular endothelium, H1833
